Monthly in September, October, and November
Semi-monthly, December to August inclusive

[Entered as second-class matter, December 14, 1916, at the post office at Ithaca, New York, under the act of August 24, 1912.]

To meet the demands of the present emergency, Cornell University will offer this year a greatly expanded summer program of instruction. This program is planned: 1, to serve the purposes of the usual Summer Session; 2, to afford to students in the various Schools and Colleges an opportunity to carry on their studies during the summer period in order to graduate earlier; 3, to provide to some students completing their high school courses in June the opportunity to enter college at that time; and 4, to furnish to men about to enter national service instruction in subjects directly related to their future duties. To serve these different purposes the summer program has been arranged in two ways. In some of the Schools and Colleges instruction will be given in terms of the usual length; in others, courses will be offered in shorter Summer Sessions.

SUMMER TERMS

The Law School, the Colleges of Engineering and Architecture, and the New York State Veterinary College will each offer instruction for a full term of fifteen weeks, beginning on June 1 and ending on September 12. Their programs of courses are arranged primarily for both old and new students regularly admitted to these Schools and Colleges, but students enrolled in similar institutions elsewhere may apply for admission. All inquiries with regard to any feature of the summer terms of any of these Schools and Colleges should be addressed to the Secretary of the School or College concerned.

The Medical College of the University, located in New York City, will also offer continuous instruction through the summer period. Since the work in that College is now organized on a three-term basis, a summer term of eleven weeks, to begin on July 6, will be added to the present program. All inquiries with regard to the summer program of the Medical College should be addressed to the Dean of that College, 1300 York Avenue, New York City.

SUMMER SESSIONS

The expanded program of the other Schools and Colleges of the University will be offered in four Summer Sessions, one of six weeks, two of five weeks each, and one of eleven weeks. The calendar of these is given on the opposite page. In the six-week Session, which will begin on June 29, the usual series of courses for teachers, school administrators, and graduate and undergraduate students will be given.

In the eleven-week Session, which will also begin on June 29, courses primarily intended for undergraduates in the College of Arts and Sciences will be offered, but students in other Colleges of the University and in other institutions may be admitted to these courses. In arranging these courses special attention has been given to the needs of pre-

medical and pre-dental students and of students planning to make chemistry or physics their major study. A special schedule for freshmen has been arranged, and students qualifying before June 29 for admission to the College of Arts and Sciences may enter this Session and by eleven weeks of summer work complete twelve hours of the usual freshman schedule. For information on entrance to any college of the University at this time, the prospective student should address the Director of Admissions.

The first five-week Session, which will begin on May 25, will offer courses primarily for undergraduates now in residence, but others may be admitted. The list will include technical courses for men about to enter national service. Advance registration for all courses in this Session will be required. The second five-week Session, which will begin on August 10, will offer a limited series of courses for advanced undergraduates, graduates, and others; in most cases these will be continuations of courses offered in the six-week Session.

ADMISSION

Application for admission to the Summer Sessions of 1942 must be made on the special form printed on the back cover of this Announcement. In most cases the information called for on this form will be sufficient. However, undergraduates registered in institutions other than Cornell University will be required to submit evidence of good standing and approved programs of study before they are admitted, and other applicants may be asked to furnish additional information. Applications for any Session should be filed at least two weeks before the opening date, and late applicants who are admitted may unavoidably be delayed in registration.

The work of the Summer Sessions is planned to put the facilities of the University at the disposal of those persons who can use them to good advantage and for serious purposes during the summer period. Admission, however, cannot be granted to persons inadequately trained for the work they propose, or whose records in Cornell University or elsewhere are unsatisfactory; neither will admission be granted to persons whose purposes seem inadequate or inappropriate or better served by other work or work at other institutions. All applications will be acted upon promptly, but early application is urged.

CREDIT

With the exception of some of the unit courses of one to three weeks in length, all courses offered in the Summer Sessions are accepted for credit in one or more of the Schools and Colleges of the University, when taken by matriculated students in those Schools and Colleges. Students registered in institutions other than Cornell University who expect to receive credit in those institutions for Summer Session work done at Cornell should arrange in advance with the authorities of the institution in which they are registered. Certification for courses completed at the graduate level will be furnished for teachers and others not registered in the Graduate School who request such certification.

Maximum credit for the six-week Session is eight semester hours; for either of the five-week Sessions, six semester hours; and for the eleven-week Session, fourteen semester hours.

ADVANCED DEGREES

Credit toward the Master's degrees granted by Cornell University and, with some restrictions, toward the degree of Doctor of Philosophy may be earned during the Summer Sessions. All candidates must be admitted to the Graduate School before beginning their work toward these degrees. Full information about the requirements for admission to the Graduate School and for the several graduate degrees is given in other announcements which will be sent upon request.

SCHEDULES

All students in the six-week and five-week Sessions are required to take courses amounting to four semester hours. The normal schedule for these Sessions is six semester hours, and undergraduates must secure permission to register for fewer or more hours. The normal schedule for the eleven-week Session is twelve semester hours and all students are required to register for at least nine semester hours.

FEES

The tuition fee for any one of the six-week and five-week Sessions is \$60; for the eleven-week Session, \$120. For unit courses of one to three weeks in length, the tuition fee is \$12 a week. Laboratory fees and similar incidental fees are charged for materials or special services. Special fees are charged for individual instruction in music, tennis, and a few other subjects.

The tuition fee for students registered as candidates for a degree in the Graduate School of Cornell University is \$60 for any one of the six-week and five-week Sessions; \$80 for an eleven-week combination of Sessions; and \$100 for the full sixteen-week period.

All Summer Session students will also pay a health service, infirmary, and Willard Straight Hall fee. This fee is \$4.50 for any one of the six-week and five-week Sessions and \$9 for the eleven-week Session.

All undergraduates in Cornell University will also pay a physical education fee of \$1.50 for any one of the six-week and five-week Sessions, and of \$3.00 for the eleven-week Session.

RESIDENTIAL HALLS

Two residential halls for women and several campus cottages are open to Summer Session students. In Sage College, board is not provided. The charge for rooms in this hall for the six-week Session varies from \$24 to \$39 with the size and location of the room. Women living in Sage College may obtain meals in the cafeterias and dining rooms on the campus at a cost of \$1.25 to \$1.75 per day. In Risley Hall board is provided and the cost of room and board for the six-week Session varies from \$85 to \$95. Charges in the five-week and eleven-week Sessions are in proportion.

Several residential halls for men are open to Summer Session students. Board is not provided and the charge for rooms for the six-week Session varies from \$18 to \$30. Charges in the five-week and eleven-week Sessions are in proportion. A list of rooms in private houses, and of apartments and houses for rent, is prepared about June 1 and will be sent upon request. All inquiries about rooms, either in the Residential Halls or elsewhere, should be addressed to the Manager of Residential Halls, Morrill Hall, Ithaca, New York.

FOREIGN STUDENTS

The University maintains on its staff a Counselor to Foreign Students whose duty is to look after the welfare of all students from other countries. It is suggested that all foreign students write to him before coming to Ithaca, or call upon him soon after arrival. He will be glad to help them find suitable living quarters and in other ways. Letters of this kind should be addressed to Mr. Donald C. Kerr, Counselor to Foreign Students, Cornell Cosmopolitan Club, Ithaca, N. Y.

MILITARY DRILL

The department of Military Science and Tactics will offer a program of military drill for male students enrolled in the eleven-week Summer Session. Details will be given in the Announcement.

RECREATION AND PUBLIC EVENTS

WILLARD STRAIGHT HALL is the social center of the University. The Memorial Room is in constant use for reading and study or for relaxation and talk. The recreation rooms are utilized for games and for classes in folk dancing. Receptions held in the lounges bring students and members of the faculty into relationships less formal than those of the class rooms.

LECTURES

A public lecture, open to all Summer Session students, is given each Monday evening of the six-week Session. The lecturers are distinguished members of the faculty and the subjects are chosen for their general interest and timeliness. Each Wednesday evening several public lectures are given on subjects of more restricted interest in connection with the work of various departments.

SAGE CHAPEL

Religious services are conducted in Sage Chapel throughout the academic year by clergymen of various religious denominations. There will be services in the Chapel on five Sundays during the Summer Sessions, July 6 to August 2 inclusive.

CONCERTS

A series of Thursday evening concerts will be given during the six-week Session. The String Sinfonietta, open to Summer Session

students, will give one concert during the summer. In addition, a mixed chorus of Summer Session students meets regularly for rehearsals.

THEATRE

Weekly performances are given by the Summer Theatre Company, composed in part of Summer Session students in the Department of Drama, on Friday and Saturday evenings of the six-week Session. Noteworthy motion pictures, especially foreign films, are presented weekly by the Summer Theatre.

FUERTE OBSERVATORY

A series of demonstration lectures, illustrated by observations with the 12-inch telescope when the weather permits, will be given on Monday, Wednesday, and Friday evenings throughout the six-week Session.

EXCURSIONS

All-day excursions to nearby points of interest are conducted on several Saturdays by the Department of Geography and Geology. These excursions, open to students in the Summer Sessions, are taken by bus; the program for 1942 will probably include trips to Watkins Glen, a coal-mining section of Northern Pennsylvania, and a state park on Lake Ontario.

SPORTS

Tennis courts, conveniently located about the campus, are available for use for a small fee. Class instruction and private lessons in tennis are offered by members of the Department of Physical Education; tennis and badminton tournaments are arranged as part of the recreational program of the Summer Sessions. A gorge at one end of Beebe Lake, on the campus, forms a natural swimming pool, where a guard is on duty every day of the Sessions. Other excellent swimming pools and beaches are available in the three state parks which are located within 30 minutes driving distance from the University.

FACULTY AND COURSES

The faculty of the Summer Sessions is composed of more than two hundred professors and instructors. These are for the most part members of the faculties of the various Schools and Colleges of Cornell University, but several other institutions are represented by one or more faculty members.

THE COURSES OF INSTRUCTION for the six-week and eleven-week Sessions are listed on the following pages. They are grouped by departments into ten divisions. Courses offered in the six-week Session are given first under the departmental heading; if any eleven-week courses are offered by that department, they are listed next under an appropriate heading. This list of courses is subject to minor changes which will be indicated in the complete ANNOUNCEMENT OF THE SUMMER SESSIONS.

Courses to be given in the five-week Sessions will be described in the ANNOUNCEMENT. A list of these courses will be furnished in advance upon request.
